Okay team, remember:

ASILE!

isn't about doing more work faster ♥

...
It's about pretending
to do more work faster, right?

NO,

TOM.

It's about
adapting
quickly,
delivering
value,
and continuous
improvement.

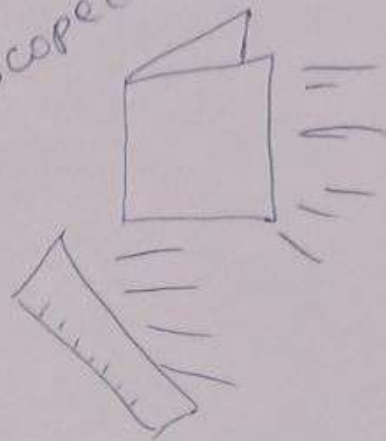

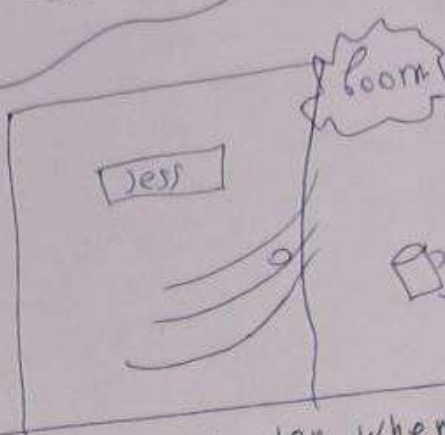

Oh

Like how we continuously improve
the coffee machine and adapt our
dead lines?

Gays!

I've prioritized the backlog again. And added just a few more features

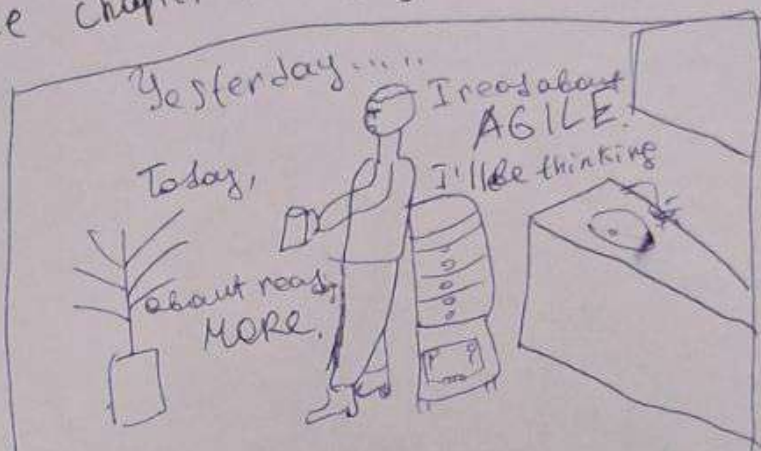

Scope creep alert

I liked the chapter where you need to break

down one difficult

task into

several easy ones to increase efficiency

OKAY!

let's sprint

not crawl

toward value

Let's ^{sarah} do this!

"AGILE-ish mode: Activated"
